Objective

I am a Grade 12 Science student from Nepal with a keen interest in computer science and software engineering. I have experience in web development, programming, and technology-based projects, with a focus on practical solutions and real-world impact. I aim to further my knowledge and skills for academic and professional growth.

Education

Capitol Hill Academy, Nepal

Grade 12 – Science Faculty

Key Subjects: Physics, Chemistry, Mathematics, Computer Science

Current Year: 2026

- Topper of Class 11
- Active participant in science and IT projects

Skills

- HTML, CSS, JavaScript
- Python (Intermediate)
- Web Design & Development
- Problem Solving & Logical Thinking
- Project Management

Projects

- **Ink from Road Pollution** – Sustainability-focused science project converting road dust into usable ink. Exhibited at Young Scientists' Summit (YSS), Nepal.

- **Personal Portfolio Website** – Built a responsive website to showcase skills, projects, and personal information. Technologies: HTML, CSS, JavaScript.

Certificates & Achievements

- Science Project Exhibition Certificate
- School-Level IT / Computer Training Certificate
- Academic Presentation & Participation Awards

Extra-Curricular Activities

- Active participant in school technology and science fairs
- Completed small web development projects for classmates

Languages

- English – Fluent
- Nepali – Native
